PORTFOLILO

DOCUMENTATION

INDEX

INSTALLATION
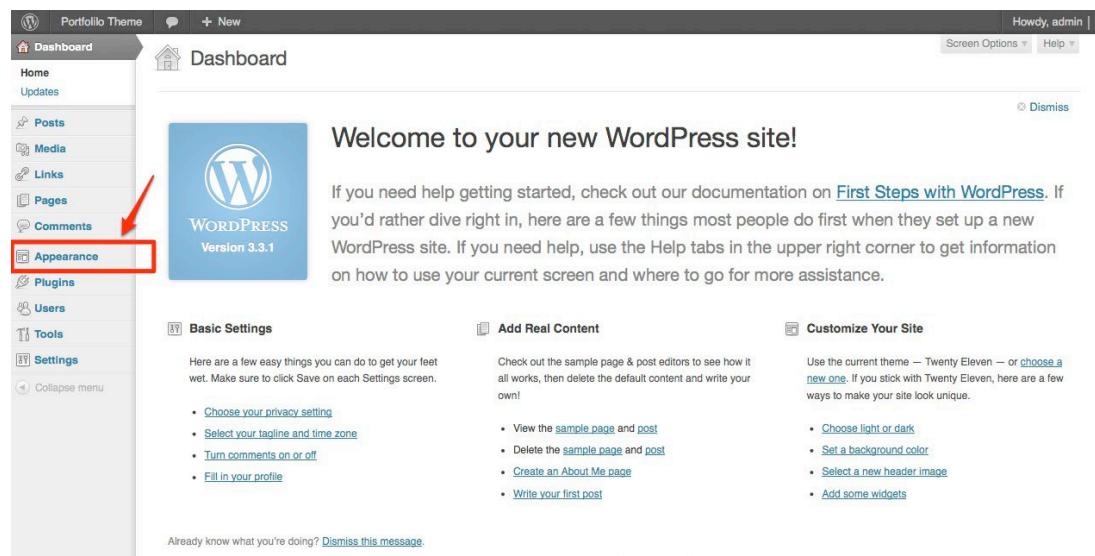

1. In your Wordpress Dashboard click on „Appereance".
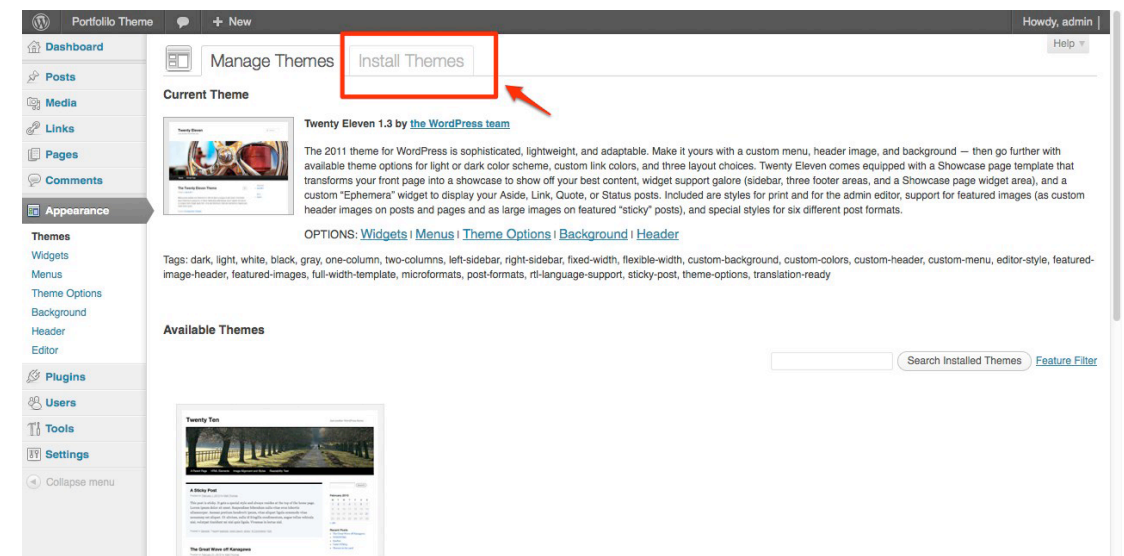

2. In the theme page click on „Install Theme".
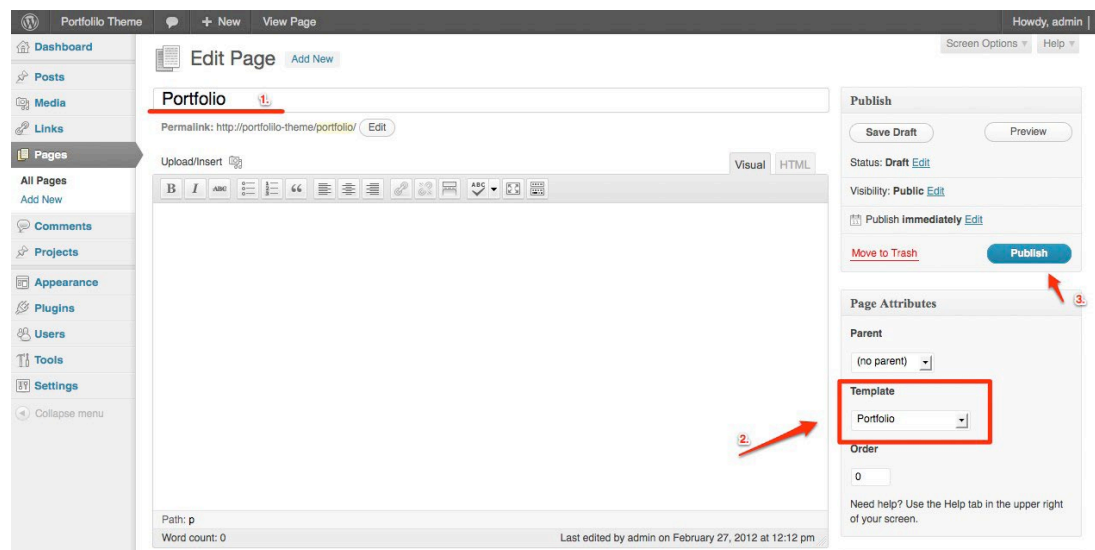

3. Click on „Upload".

4. Search for the downloaded .zip-file on your harddrive, select and click „Install Now".

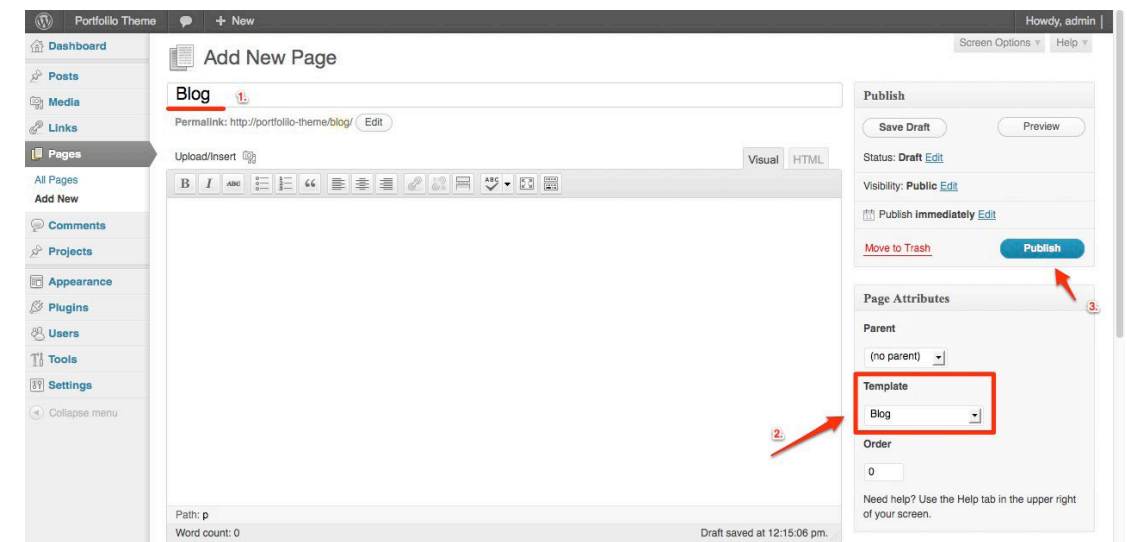

5. After the theme is uploaded click on active and the portfolilo is installed.

6. For the theme to work properly, you need to add a „blog" and a „portfolio" page. For that, in the wordpress menu, click on „Pages" and then „Add New".
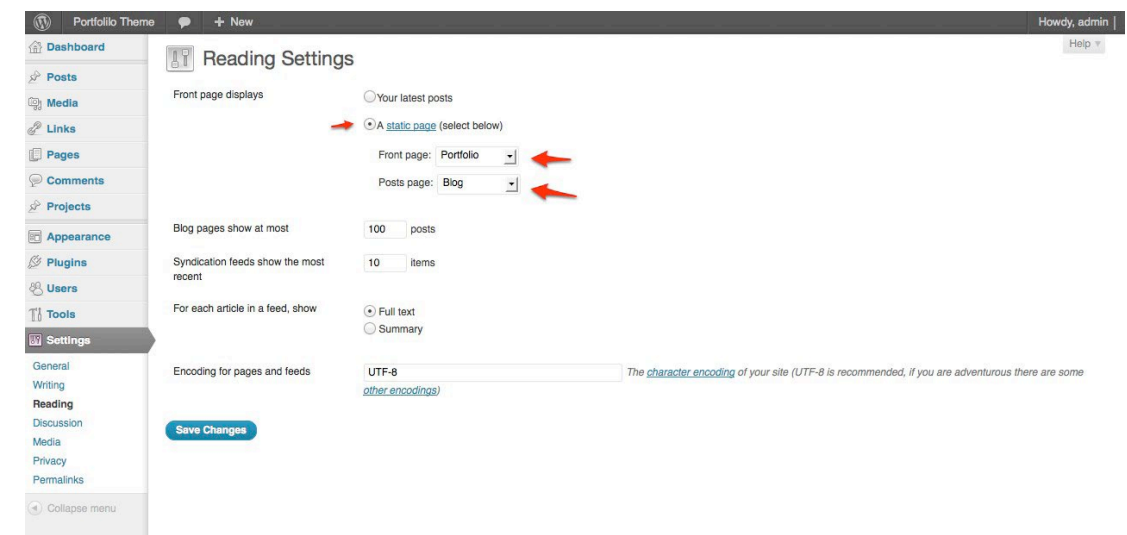

7. Create a new Page and name it „Portfolio" or something similar. In the template box select „Portfolio". When done click „Publish".

8. Repeat the instruction from steps 6 to 7 and create a page with the name „Blog" and the template „Blog". When done click „Publish".

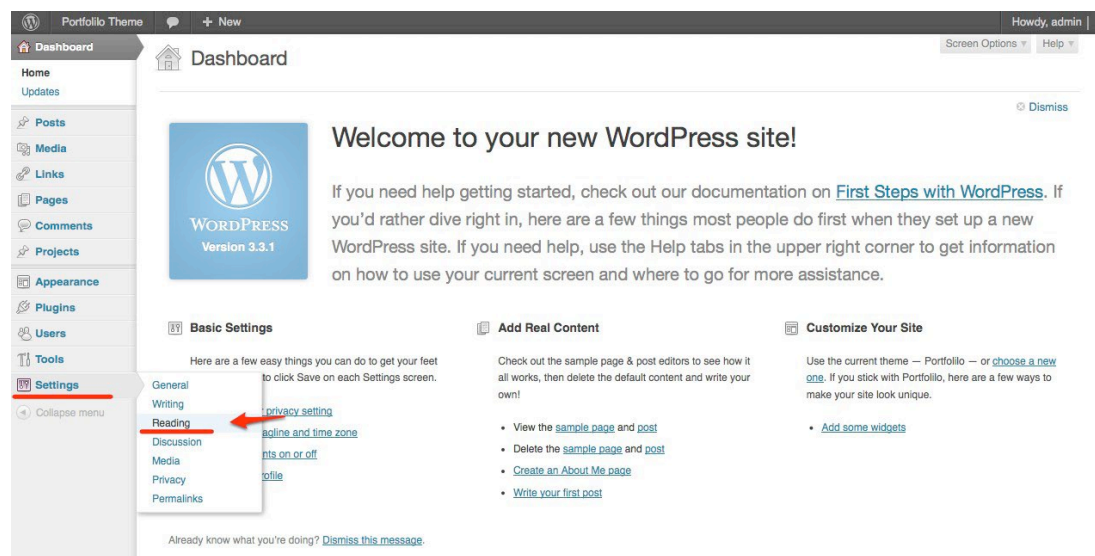

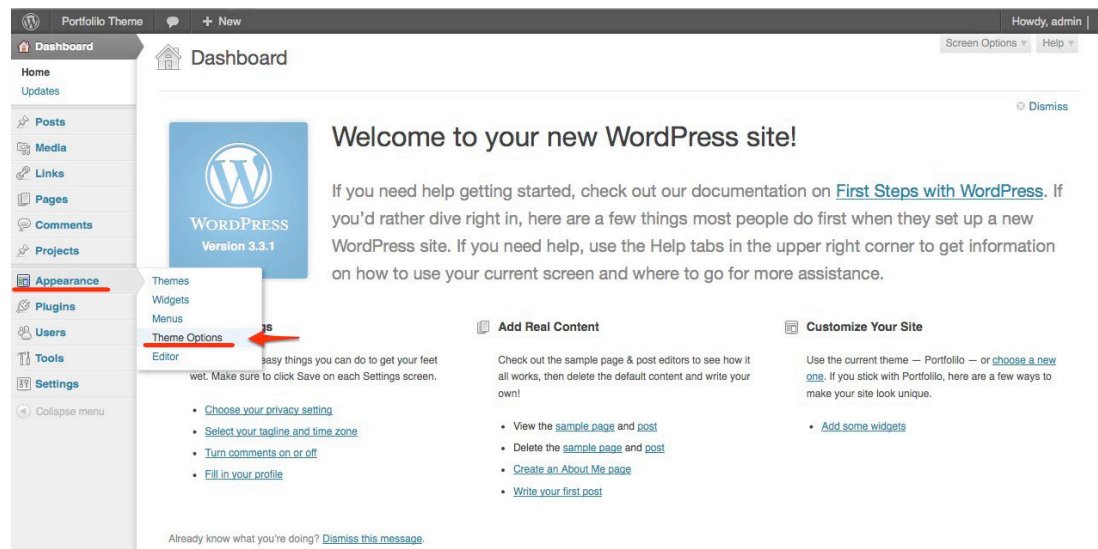

9. When the two pages are created go to Settings -> Reading in the wordpress menu.

10. Set the checkbox to „A static page" and choose the created page „Portfolio" as Front Page and the „Blog" Page as Posts Page. When done click „Save Changes". Congratuations your done with the installation.
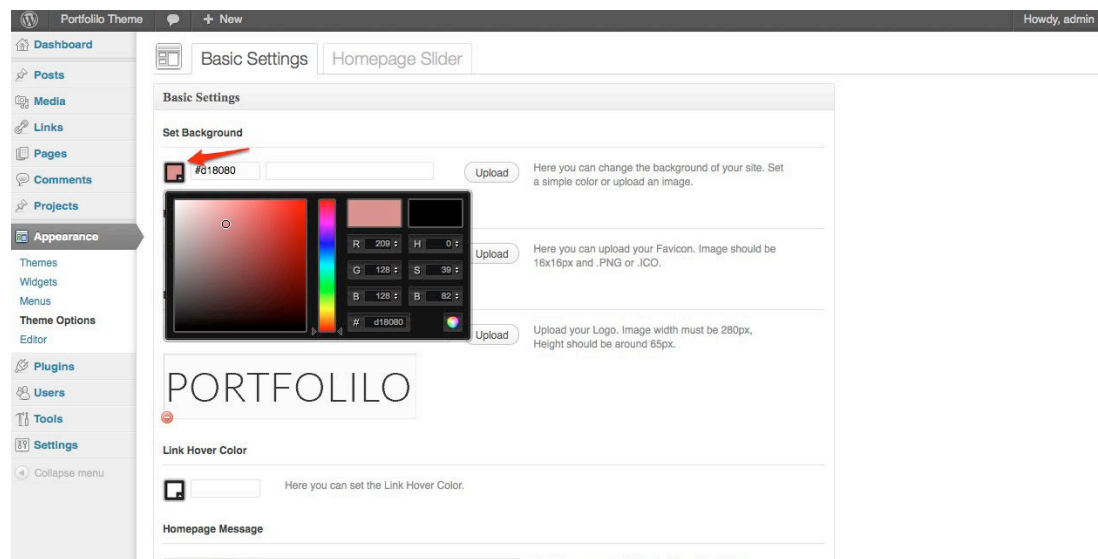

CUSTOMIZATION

1. To change the appereance of your theme click on „Appereance" -> „Theme Options"

2. Here you have the Basic Settings and the Slider Settings where you can customize your theme.
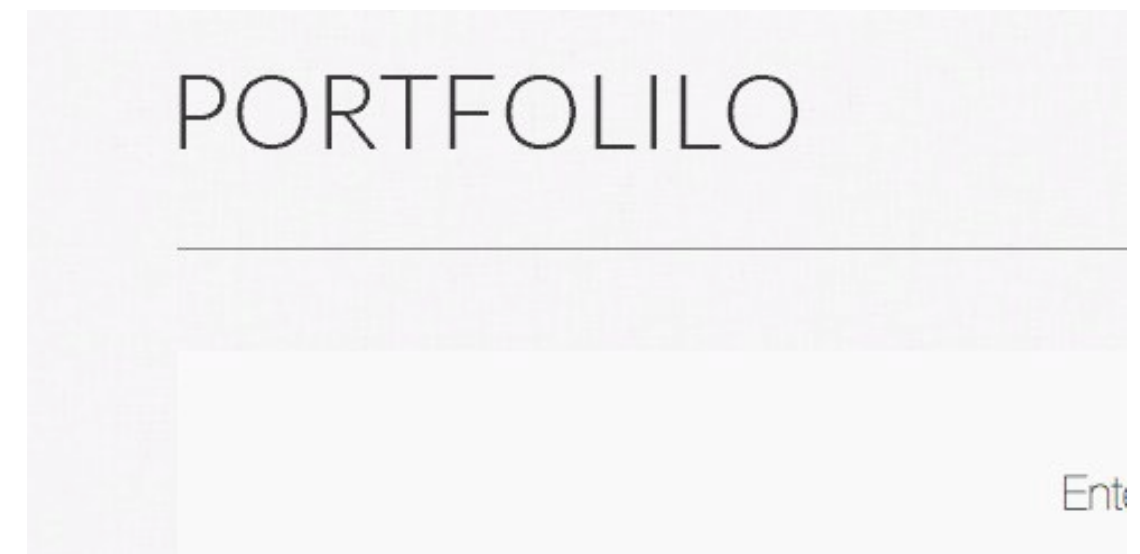

1. To change the background of your theme click on the colorpicker icon to set a color or click on „Upload" and upload an image.

   be displayed.

the color of your message box

Welcome to my site.

GOOGLE ANALYTICS

**Insert Google Analytics Tracking-ID**

UA-XXXXXXXX-X	Enter your unique Tracking-ID which looks like UA-XXXXXXXX-X

1. If you want to track the visitors of your page via Google Analytics enter your Tracking-ID here.
   To use Google Analytics visit www.google.com/analytics/. Here you can create a account, register your site and get the Tracking-ID.
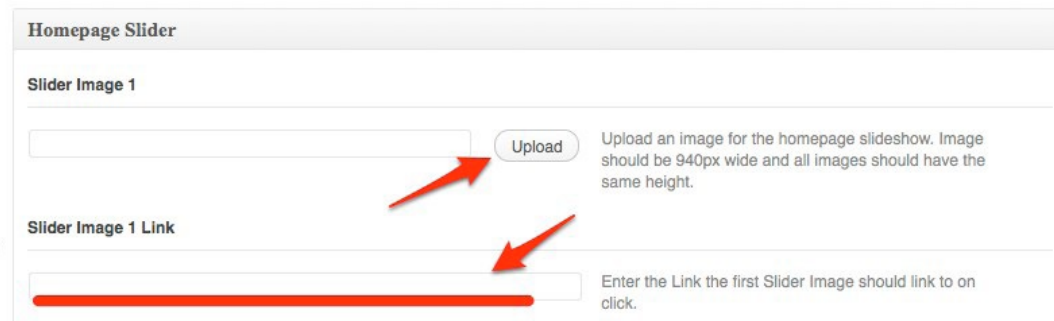

Google Analytics Dashboard

FRONTPAGE SLIDER
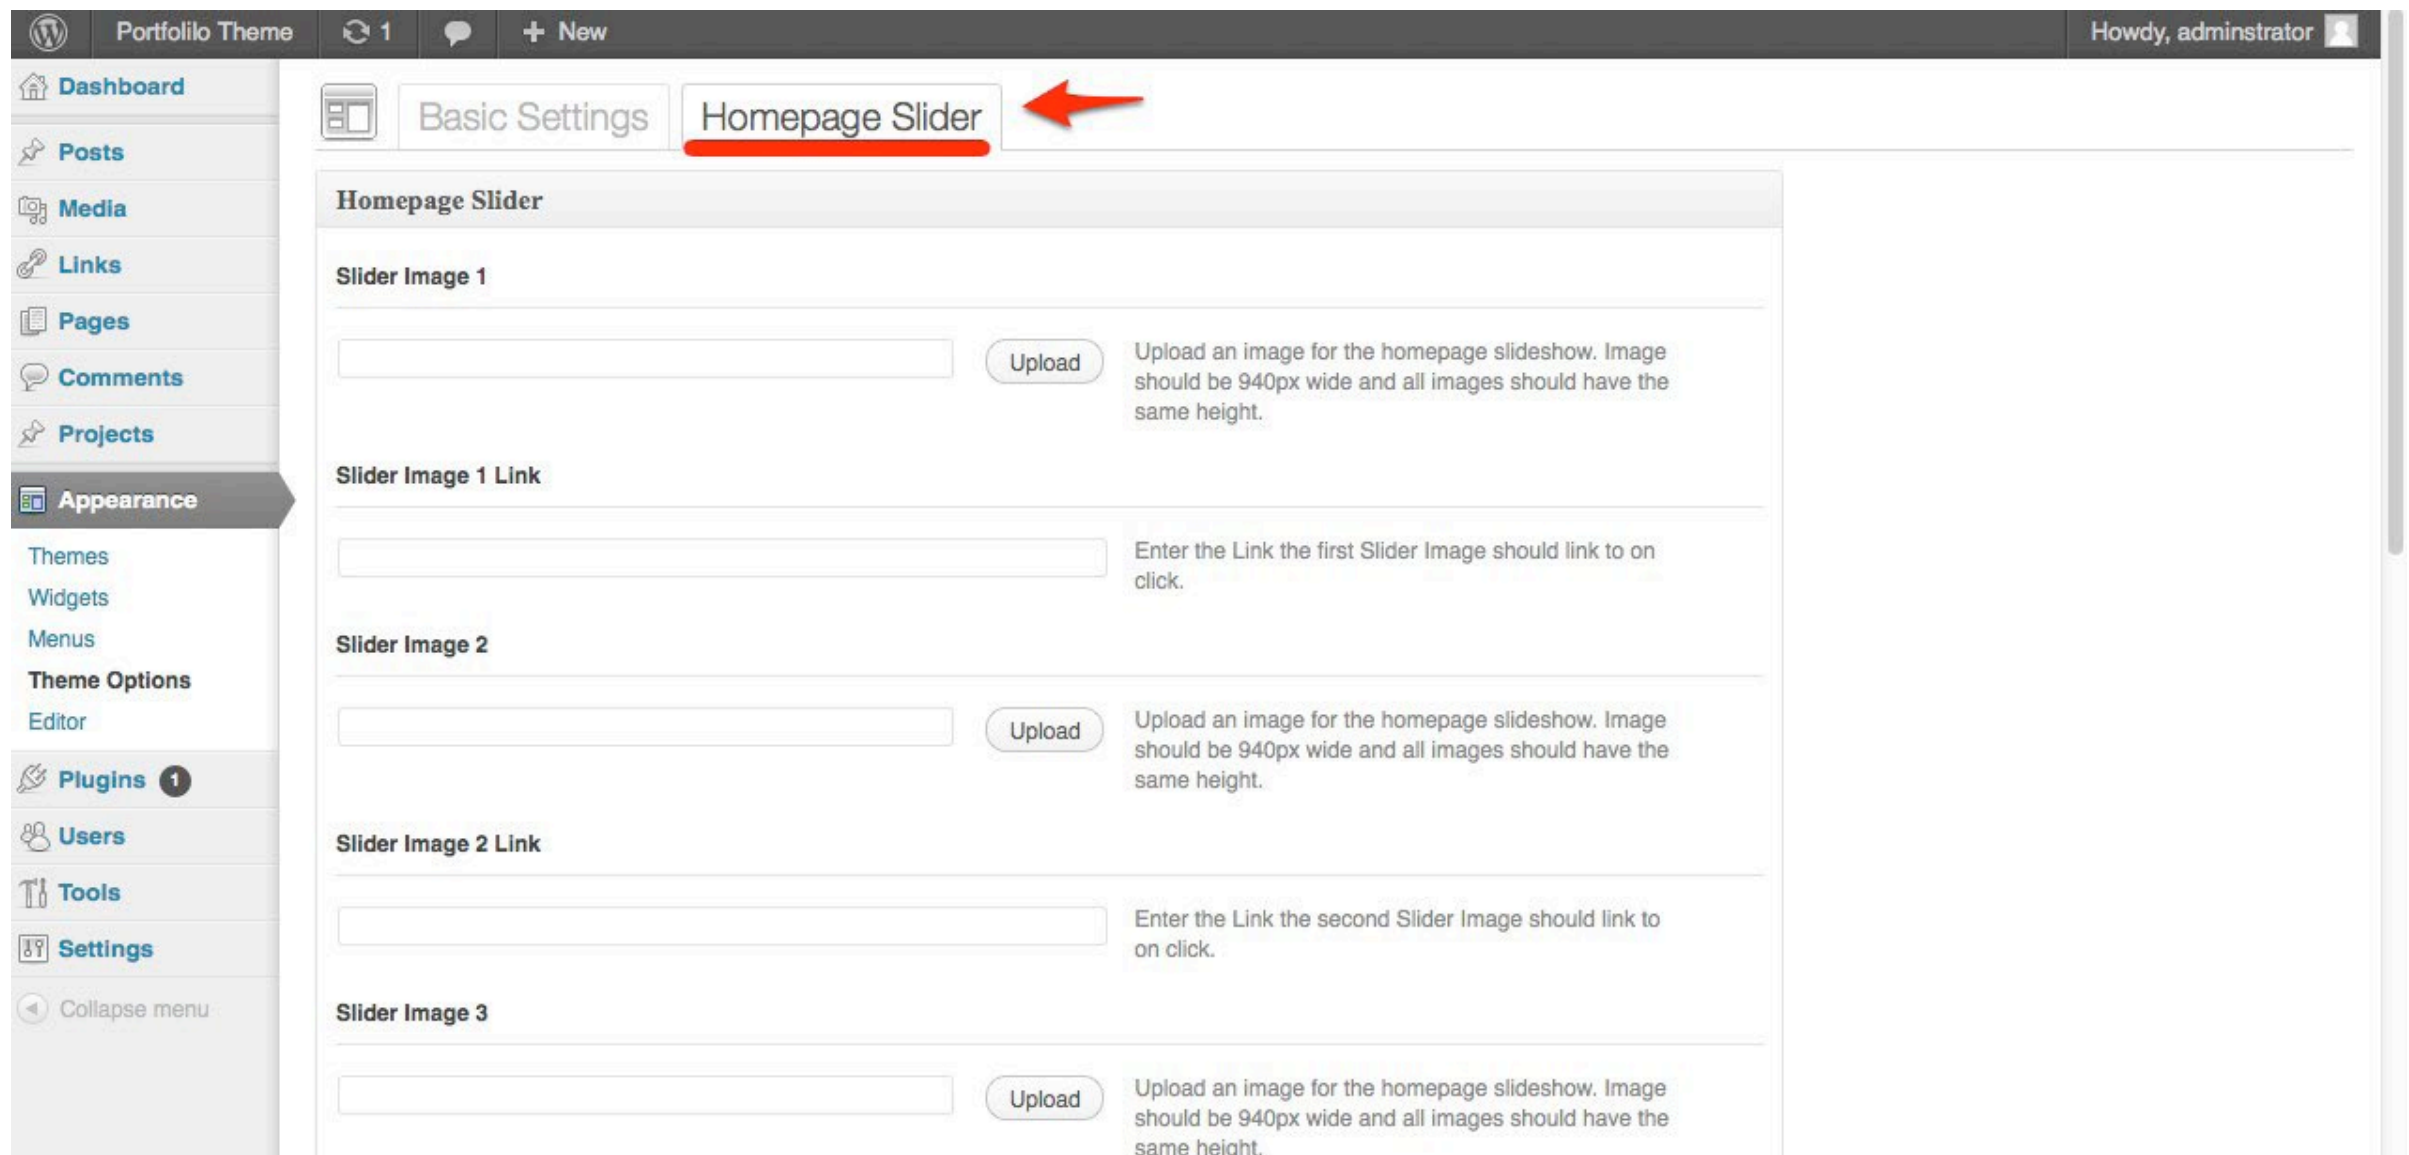

1. To set the images for the frontpage slider click on the „Homepage Slider"-Tab in the Theme Options Section

FRONTPAGE SLIDER

1. Click on the Upload-Button to upload your image.

The image must be 940px wide, but can be any height. I reccomend to give all images for the slider the same height.

You can also set a link to which the image should link to. Just enter the URL in the „Slider Image Link" field.

2. If you want to use the slider you have to insert 5 images. I'll try to fix this issue in future versions, but for now five images are a must.
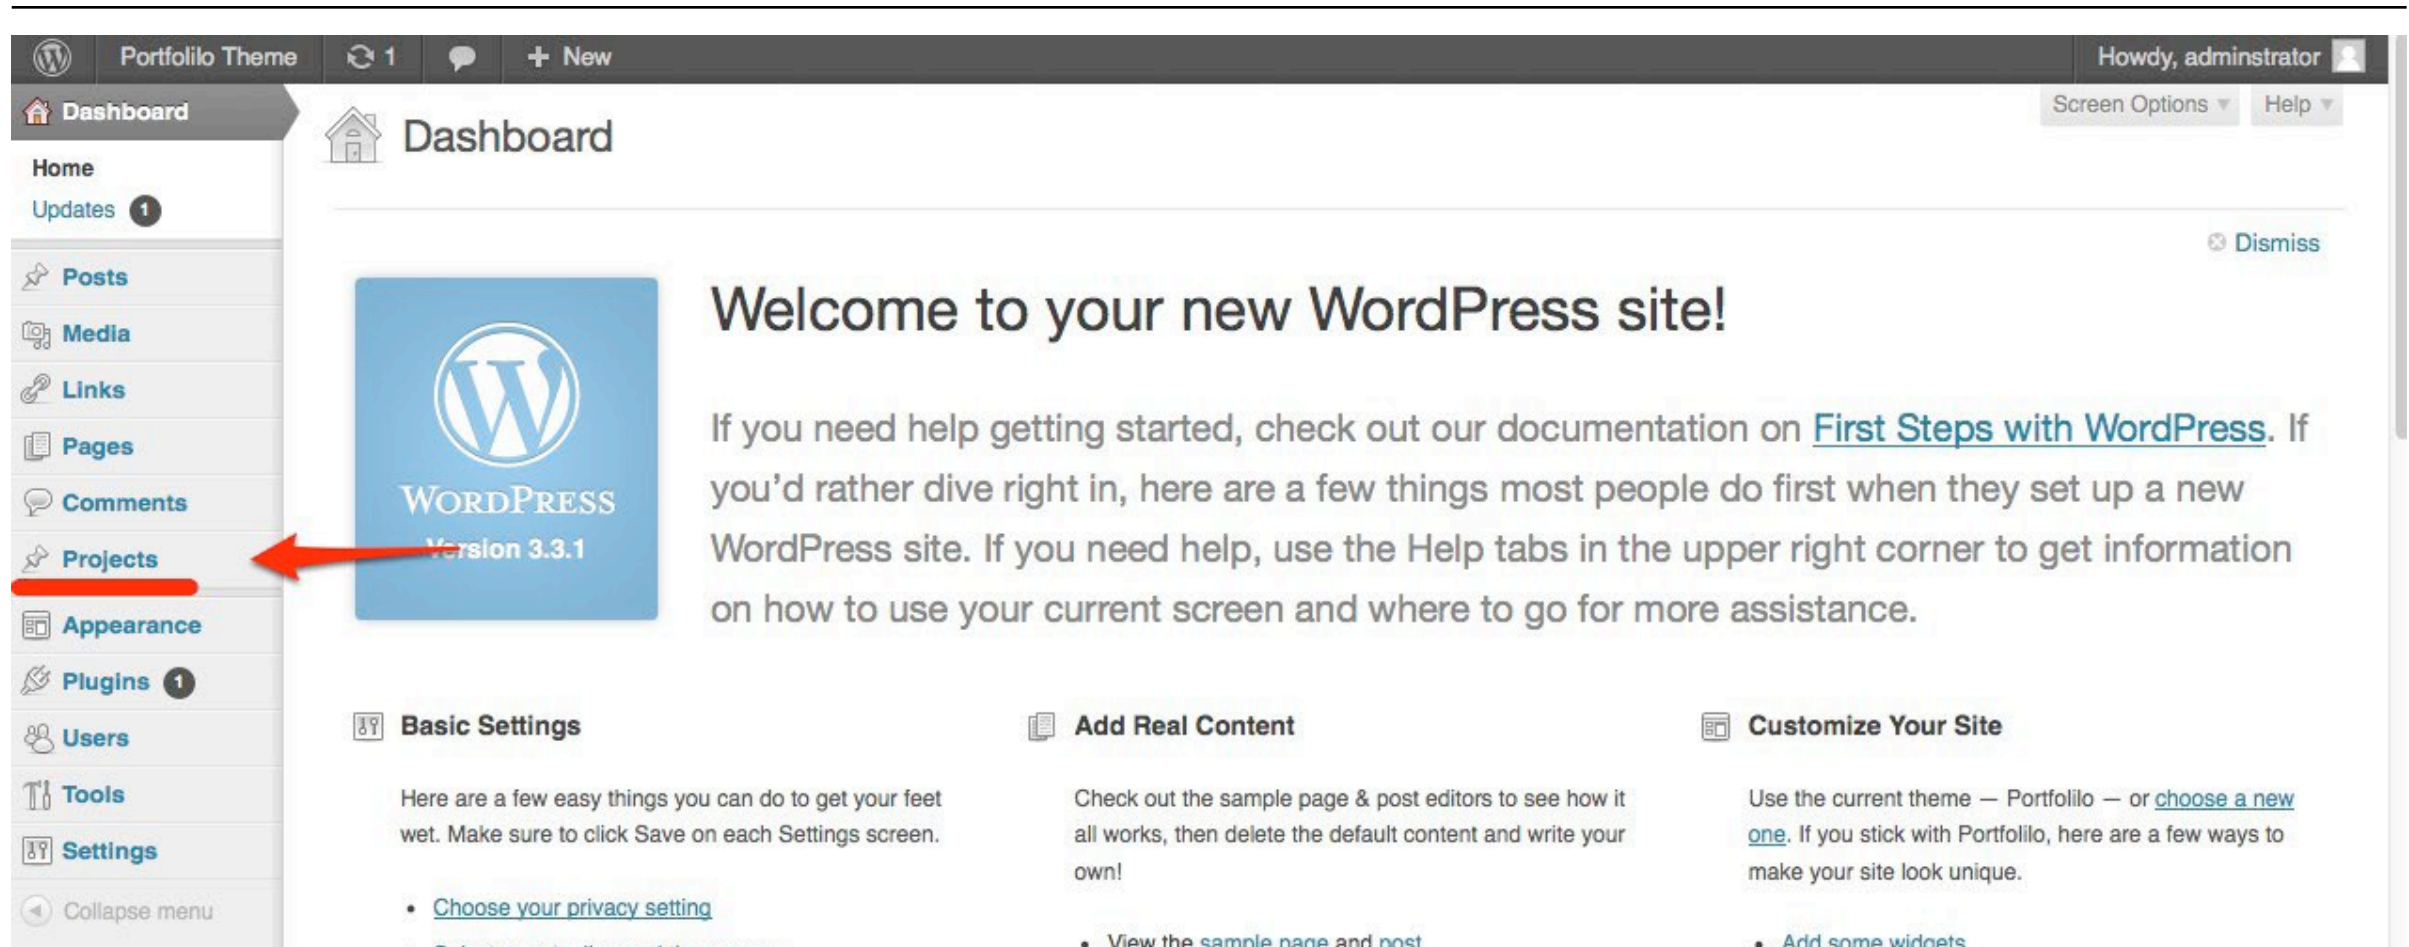

If you want to use less images I reccomend using one multiple times.
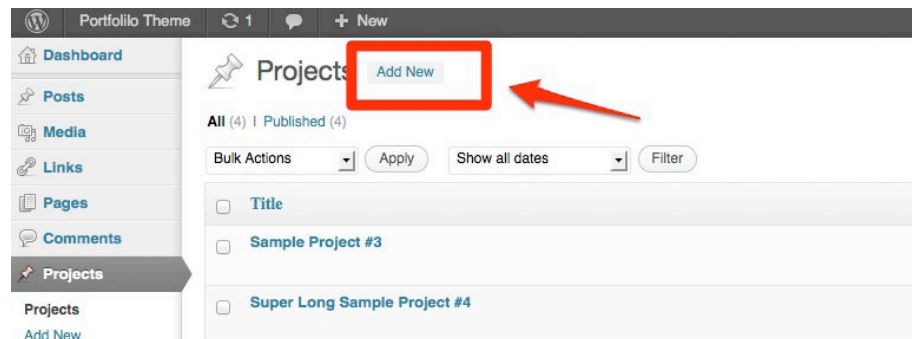

When all images are uploaded click „Save Opttions".

ADD A PROJECT

1. To add a project to your portfolio site click on „Projects" on the left side of your wordpress menu.

ADD A PROJECT

In the „Projects" Section click on „Add New" to add a project.

1. Enter a title for your project

2. Upload your images
   Everything entered in the first editor field will be display
   on the right colum in your Project Page.

   Images should be 640px wide.

3. Enter a description or text about your project.
   Everything entered in the notes field will be display
   on the left colum in your Project Page.

4. Set a preview thumbnail for the frontpage.
   Thumbnails should be at least 225x220px.

5. Enter tags which fit your project.
   These will display when someone hovers over the
   thumbnail image on the frontpage.

6. Publish your project.

PAGES

ADD AN IMAGE TO RIGHT SIDE OF PAGE

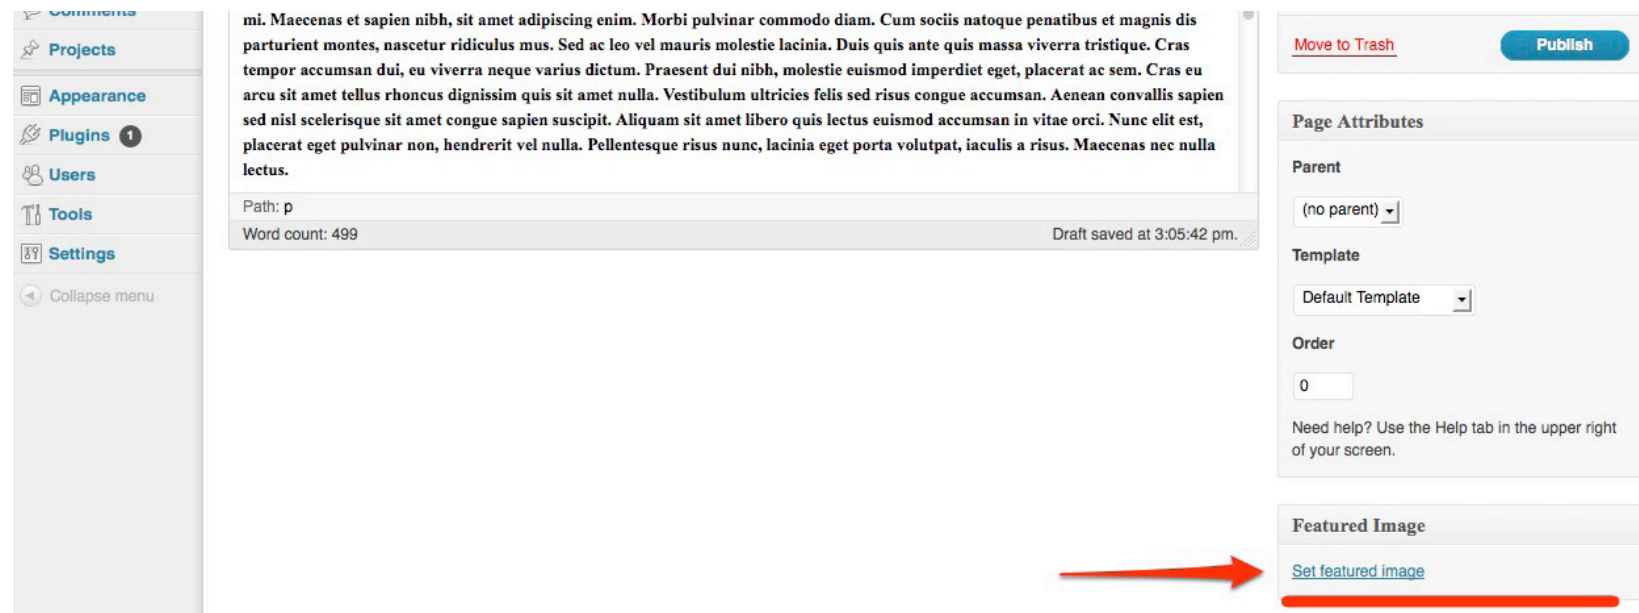

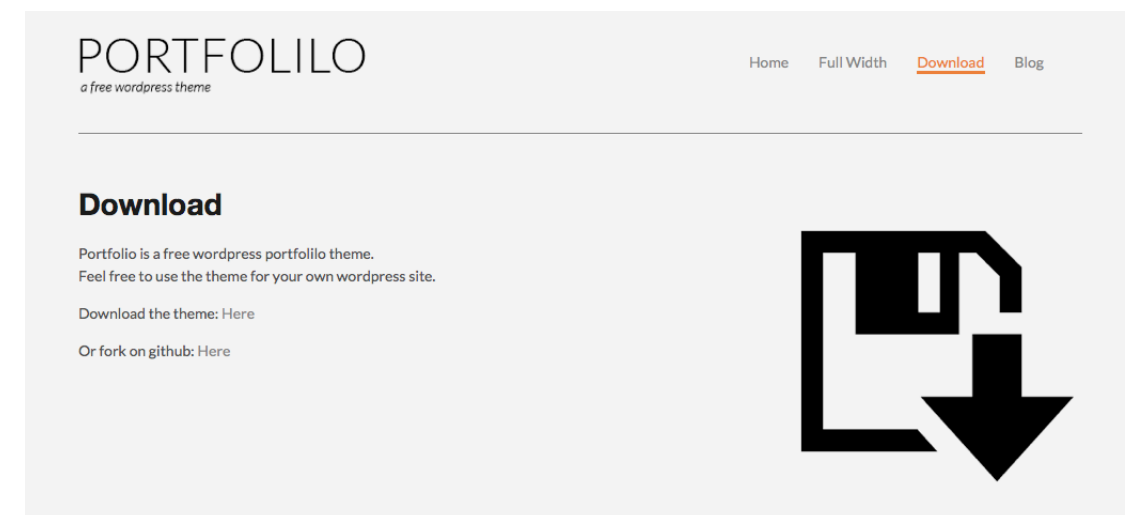

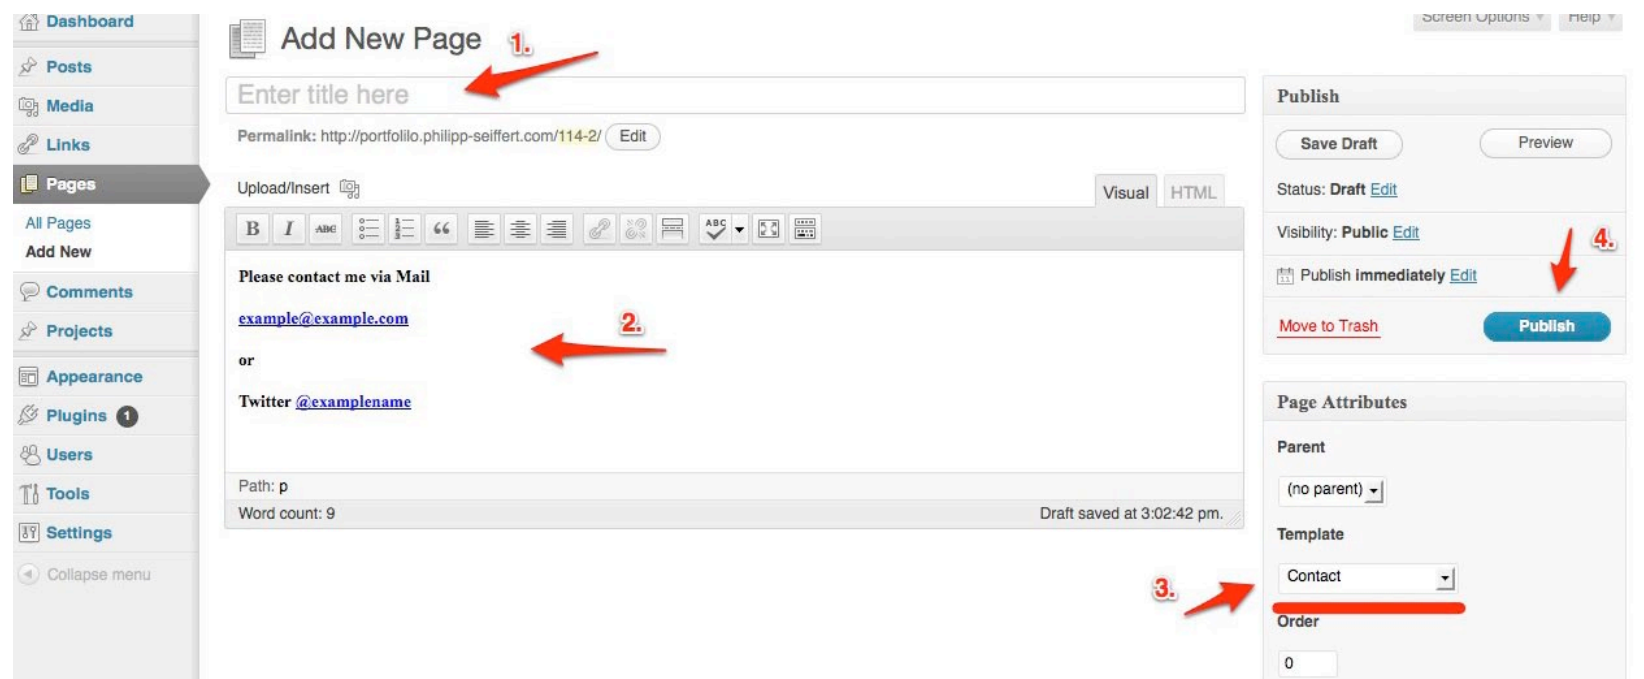

1. To insert an image on the right side of a page just use the „Featured Image"
Option of wordpress to upload an image.

The image width can be up to 280px.

An image on the right colum of a page
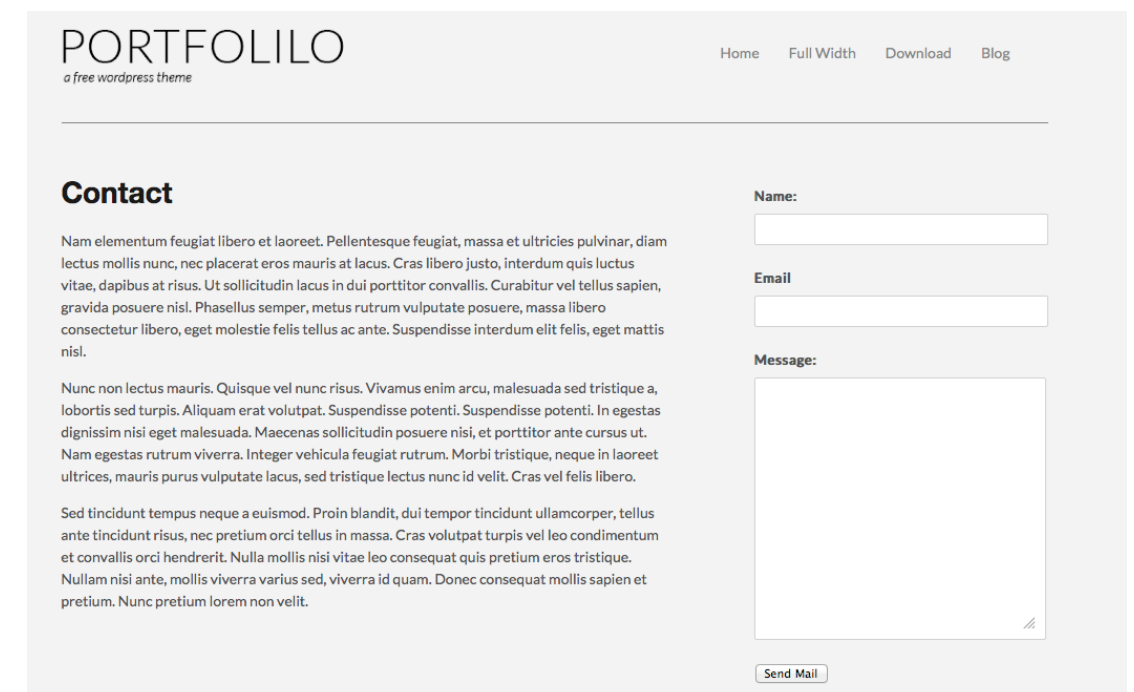

BUILT-IN CONTACT FORM

The built-in contact form

To use the built-in contact form just add a new page.

1. Give the page a title. (ex. „Contact")
2. You can enter some text, maybe about other possibilities to contact you.

3. Set the template of the page to „Contact"

4. Publish the Page

The mails will be send to your admin email adress, which you can set under Settings -> General.

THANK YOU

Thank for downloading the „Portfolilo Theme."

To always get the newest version and ask for help watch the theme on gihub.
